

Royal Mail Steam Packet Company

Without touching in Brazil.

GUADIANA,
2,504 Tons, — Horse-power,
Commander —

Will sail on the
7th of February,

for
ANTWERP DIRECT,
Calling at
MONTEVIDEO, ST. VINCENT,
LISBON, VIGO, SOUTH-
AMPTON.

The above steamer will carry 1st, 2nd and 3rd class passengers at
REDUCED RATES.

Mails, Specie, Cargo and Parcels to all the above ports and

THROUGH TICKETS
Are granted to Antwerp, Havre, Cherbourg and principal towns in Spain and Portugal.

These steamers are provided with every accommodation for carrying passengers, and table-wine is given to all classes.

RETURN TICKETS
Are granted to 1st class passengers with deduction of 25 per cent on passage money.

A considerable reduction is made in their favor.

Persons wishing to bring out their friends from Europe can arrange with the Company's Agent on reasonable terms.

For further particulars apply to the Agent,

General Broker and Commission
Agent.

FOR SALE
The following highly-approved Specimens for
curing the skin and in small or large quantities.
Pamphlet and samples will be forwarded on application.

1. Linck's extract of Tobacco (South Down
Tobacco)

2. Marvalina

3. The Little Dip

4. The Glycerine Dip

5. Jays' Sheep Dip

6. The Compound Sulphurous Essence of
Tobacco

7. Esencia de Tabaco Sulphuroso.
This is the most highly approved specimen for
curing the skin and in small or large quantities.
No commission to purchasers.

Estadística, Wire, Posts and Torniquetes for
Sale. Puestos to Meat.

Cattle from the Provinces and Blood Stock
from Europe.

Montevideo, Jan. 10,
4.30 p.m.

Important news from Rio, which
I did not send last evening thinking
that you must have got it all
through Havas. The news are
these—

Owing to a new tax of one vintén
(2 cents) put on all tramway and
railroad tickets in Rio Janeiro, a
mob composed of about 8000 people,
mostly Republicans, gathered in
the main streets to protest against
the tax, causing very serious distur-
bances in which the troops had to be
called out to put a stop to the pro-
ceedings and ultimately succeeded.

The disturbance commenced on the
1st inst. in the Plaza Pedro 2°, in
a meeting called together with the
object of protesting against the tax.
Dr. Lopez Trovao, getting on a bal-
cony, pronounced a very severe
speech, advising the people to resist
the Government and the authori-
ties.

After this an officer named Federo
Severo followed with another
speech in the same sense, after which
the people proceeded in a body into
Ovidor Street, crying out 'Death
against the authorities!' 'Long live
the Journal do Comercio, Gracioso
and Gaucha de Nohias'

Reaching Uruguaia Street, the
mob divided into different groups,
one of which remained in Ovidor
Street, and another took to San
Francisco.

Doctor Lopez Trovao continued
his speeches, and the mob took to
very serious acts, taking the tram-
way cars and barricading the
streets, lighting up the rails and
destroying several cars and killing
the horses. Several shots were dis-
charged from revolvers and mus-
kets against the guards and drivers.

The police authorities, seeing
this, tried to stop the proceedings,
and were fired into and stones
pitched at them.

The mob were headed by Dr.
Trovao, Don Ferreira Meneses and
others. The cavalry troops attack-
ed the mob and dispersed it, but
later on they had to charge again,
and ultimately battalion number one
turned out, and being fired upon
they discharged a volley and some
were killed and many wounded.

Three people were killed, two of them
foreigners.

The mob was ultimately dispersed,
but the disturbances continued more
or less until the 3rd inst. The mi-
nistries were required to repeal the
tax and energetically refused. The
Press published a manifesto request-
ing the people to keep quiet and
wait for the resolution of Govern-
ment in a peaceful manner.

Great damage was done to houses
and shops. The active movements
of the people had subsided, but an
ill-feeling against the Government
continued against the steamer left
Rio.

Associated Press
Telegrams

(HAVAS' AGENCY)

London, 9th.

A telegram from Trebinje to-day
says that Montenegrins sent to cap-
ture Gushin have been attacked
near that city by large numbers of
Albanians. A bloody fight. Monte-
negrins completely victorious.

BUENOS AYREAN COLONIES.

If the harvest of Santa Fe has
deceived our bright hopes, and the
wheat that we looked for at San
Lorenzo and Santo Tomé has turned
to straw, the crops of Buenos Ayres
were never more splendid. The fields
of Quilmes, the slopes of San
Isidro and the wild charras of Ola-
varria have given to the husband-
man a yield that awakens us to the
pleasant fact that we have a Santa
Fe of our own in this province, if we
but know how to develop it.

Mr. Dillon's letter to President
Avellaneda, narrating the progress
of immigration throughout the year
1879, and certifying to the prosperi-
ty of the Russian colonists at Ola-
varria, has a double significance,
since it proves two most important
facts:—First, that the running of
the North-German Lloyd steamers
from Genoa to the Plate has fos-
tered the Italian emigration; and
second, that the Russians, when
well and properly treated, are good
colonists and a valuable acquisition
to our National resources. Both
these points are covered by this let-
ter, and they are points of some im-
portance, since it is more than pro-
bable this will lead to a still
further development in the same
line.

Until last year it was very gene-
rally supposed here and in Europe
that the Lavarello steamers were
quite sufficient for the Italian
emigration to the Plate. Now and
then we published that, on the sail-
ing of the steamers from Genoa, pas-
sengers remained over, but neither
our Government, nor even our mer-
chants paid the least attention to
the fact that the Italians were often
sent by rail down to Havre, where,
by the tricks of land-sharks and
runners, the unfortunate people were
frequently put into the wrong
steamer and exiled to Venezuela or
deported to New York. The cruelty
of such tricks upon the poor emi-
grants was too obvious to be over-
looked, and many of our New York
colleagues acted well their part by
calling the attention of the authori-
ties to the swindle, and in some
cases leaving the steamers fined.

The North-German Lloyd steamer
Hermann enters port this morning
with 950 Italian emigrants, and it
might fatigue our readers to give a
list of the steamers from the Medi-
terranean at present on the way out,
all freighted with emigrants. We
note, however, in this, as in many
other trades, that the greater the
facilities the greater the develop-
ment, and we really see no reason to
doubt that Southern Europe will, in an
emigration point of view, prove to
the River Plate what Northern Eu-
rope has already been to the United
States. The great steamer competi-
tion that now exists has brought the
passage money for the Italian emi-
grant to the Plate to £4, which is
about on a parity with the passage
money in the Liverpool emigrant
sailing ships in the year 1851, when
Irish emigration to the U. States was
at its highest.

The prosperity of the Olavarría
Colony is a matter of the most vital
interest to Buenos Ayres; it estab-
lishes that colonies can thrive in
this province when properly man-
aged, and that our capitalists are
not limited to sheep and cattle
farming. On many previous occa-
sions we have called attention to the
great want of push or energy by our
country Municipalities, who, if they
were equal to their trusts, would
have all the Municipal lands of
'ejidos' around their towns settled on
by agricultural immigrants, instead
of being covered with fields of 'abro-
jo grande,' 'sietal' or 'bisnaga.'

Each of these Municipalities hold
the power to create around their
towns, on these idle Municipal lands,
smiling, happy homesteads. The
miserable excuse that the land,
country, climate and people are not
adapted to grain growing is scatter-
ed to the winds by this letter of
Mr. Dillon, which shows, in the case
of the Olavarría Colony, precisely
the contrary; and now that the Go-
vernment of the Province has taken
the matter in hand and ordered re-
turns from every Partido and Juzga-
do, let us hope Mr. Balbin will ga-
ther from the country Justices a list
of these 'ejidos' or Municipal lands
that are lying idle, through the
'dog-in-the-manger' policy of the au-
thorities. Every acre of these 'ejidos'
we want for the Lavarello and
North-German Lloyd passengers,
and instead of sending them off to
the Gran Chaco or Patagonia, let us
plant at least some of our colonists
around the country towns of this
province.

Mr. Gilmour, of Liverpool, who
last month visited the Plate, after
an absence of 14 long years, assured
us that he noted far more change,
progress and improvement in the
camps of Buenos Ayres than in the
city, and yet that improvement is
purely individual. The estanciero
progresses, the sheepfarmer thrives,
fences his land and changes the phi-
sionomy of the very camp—but the
towns and their authorities, the
country Judge and his Alcaldes are
the same to-day as in the time of
Rivadavia. These country towns, if
surrounded by Esperanza or Villa
Colón, with wheat-farms, would very
soon become centres of great im-
portance. We have the land, the co-
lonist, the seed and the farming uten-
sils, yet the rich and prosperous and
enlightened Province of Buenos Ay-
res can only show the Russian Co-
lony of Olavarría as its sole effort in

a line where the people of Santa Fe
hold such acknowledged precedence.

We trust Governor Tejedor will
begin the new year by founding a
couple more Olavarrías and insist-
ing on the country Municipalities at
once settling the immigrants on their
'ejidos,' which, lying as they do, co-
vered with weeds and thistles, form
a speaking sarcasm on our Muni-
cipal Administrations.

LATEST FROM ROSARIO.
(Our own Correspondent.)

Jan. 7th.

Your article on 'Our wheat crop,
in Saturday's issue, is interesting,
embodying as it does your own re-
marks with extracts from the Times
correspondent in Minnesota. The ex-
perience given to us by the corres-
pondent tallies very closely with
what we see in this province this
year. It is very satisfactory to see
from your article that the pro-
vince of Buenos Ayres a larger
crop can be expected than last year.

This, with the wheat from Cordoba,
and probably some from Santiago,
and the flour from Mendoza and
San Juan, may keep up our credit
as exporters of cereals to Europe.

It is a great drawback that Santa
Fe, which became known in the mer-
cantile geography of European mar-
kets for the first time last year,
should turn out the losing horse
this year. It is not the low rate of
yield, but the intrinsic bad quality
of the grain that is the misfortune.

Seven bushels to the acre will not
pay the farmer, but were those seven
bushels of a good quality, it would
pay the country, for it could be ex-
ported. Seven bushels to the acre,
which is now admitted to be the
average yield in this province, if of
the quality of last year's crop, would,
at all events, mean three millions
of bushels of wheat worth four
millions of Bolivian dollars to the
province; but it is probable we shall
not be able to aid the exportation
of the country with more than five
hundred thousand bushels; and we
may count ourselves fortunate if
that quantity can be collected of a
quality to suit the European mar-
kets.

The Cacaña mill has been grind-
ing wheat that only gave one third
flour, that is five arrobas, 125 lbs. to
a Santa Fe fanega of 375 lbs. The
September and November frosts,
particularly the latter, did the dan-
age. There are many cases all over
the province of the yield being only
two fanegas to the square, or three
bushels to the acre, not paying cost
of harvesting. Where the lands
stand high the crops have been
better; and at the colony of Jesus
Maria there is some fair wheat, as
there is also in the colonies to the
north of Cañada de Gomez.

A quantity of machinery and ma-
terial has been landed here, and
sent up to Mr. Lafone's silver and
copper mines in Catamarca. The
copper of these mines is exception-
ally rich in gold. I have heard it
stated that the gold extracted from
the copper of Mr. Lafone's mines
pays all the freight from the mines
to England of the copper.

The agent of the great machinery
house of Messrs. Fawcett Preston
and Co. of Liverpool, who has been
in this country some years, returns
to England. He has introduced a
considerable amount of machinery
for the manufacture of sugar in Tu-
cuman and Salta; I believe, however,
that the French or Belgian Central
machine is preferred up the
country. If I am wrong, Mr. Hill
will set me right. Those I saw in
Tacamán were French. We may ex-
pect this year a great increase of
production of sugar, owing to the in-
roduction of machinery within the
last year.

Some four months ago Pedro Peña
took it into his head that the regu-
lar profits of business ought not
to satisfy an enterprising man, so,
making use of all his credit and
that of his friends, he bought in B.
Ayres as many goods as he could,
brought them to Rosario and opened
shop. A few days afterwards he
chose to fail, and put up the shut-
ters. On opening the store the au-
thorities were surprised to find it
entirely empty. Mr. Peña had
cleverly hidden everything away.
He was apprehended and put into
quod. The greater part of the goods
has been discovered. He had sent
them to the country house of a friend.
I recall this incident to mind by
seeing in the papers that Peña has
just escaped from prison.

Sixty five immigrants were landed
here during the past week. I am
afraid many of the immigrants that
are being sent up the river are suf-
fering much misery. A large num-
ber are sent up by the Immigration
Department merely to get rid of
them, and without any distinct de-
stination. As many as seventy were
sent out in one batch to a colony
where no hands were wanted, and
two hundred were landed in Pa-
raña. Some time after another
batch was sent up to the same place,
and the newcomers had the grati-
fication of finding most of the for-
mer remittance lounging about the
town, the port, and the cliffs, with-
out work and begging for their
existence.

A singular incident occurred at
Baldon on Sunday. There are al-
ways horse races in that place on
holidays, which draw together all
the 'paisanos' from ten miles around.
It was

EDITOR'S TABLE.

The sailing of the mail steamer Leibnitz was the business of the day yesterday, and, between the Packet Edition going out and the Cotopaxi's mails coming in, several new subscribers got enveloped in newspapers, although news was rather scarce. We publish extracts from the papers by the Cotopaxi in another column. We perceive that the London and River Plate Bank has declared a 4 per cent dividend for the half-year.

Our Rosario correspondent's account of the Roca banquet in that city has set the White and Black Hat parties more furiously by the ears than ever. There is certainly a vast difference between it and some other versions given to the public, but we can vouch for the mathematical correctness of our veteran correspondent. Some people suggest that the other candidate, Governor Tejedor, ought now to try his luck in Rosario and see if he will get a warmer reception there than his political opponent. We fancy it would turn out six of one and twice three of the other, in which case both candidates might retire gracefully and make way for some other aspirant to the Chief Magistracy.

A friend who has just returned from a tour through the North and North-west camps tells us that it has rained everywhere in that direction and the pasturage is looking superb. The nicest place he saw was Mr. Archy Craig's, at Fortín de Arco. There is an alfalfa field there worth a long journey to see, and the orchards and grounds would do credit to the most smiling spot in Devonshire or the County Wicklow. Fifteen years ago Mr. Craig's estate was a piece of open camp.

Masquerade balls again to-night at all the theatres. The Politeama has reduced the price of 'entradas' to 30 mrs. The Opera House has started a garden at the back of the stage, we suppose for garden parties; and the Skating Rink has posted up a notice 'No niggers need apply; and coloured ladies and gentlemen must patronize some other establishment.'

We salute our colleague *The Southern Cross* on its sixth anniversary, and congratulate the Venerable Dean, its editor, on the occasion, and on his address to his readers on the subject.

(To be continued.)

The Cotopaxi's Mails.

London, December 13th.

The Congress of German Chambers of Commerce is pleading for an International Exhibition at Berlin. The Government is not much inclined to approve the proposal, because it is planning an exhibition of German and Austrian art-industry for next year.

It is reported that Krupp of Essen has undertaken to execute a large order for steel rails for England, and that he promises to make them at 15s. less per ton than all his English competitors.

It is announced that the Coupon No. 11 of the East Argentine Railway Seven per Cent First Mortgage Debentures, and Coupon N. 8 of the Eight per Cent. Second Mortgage Debentures, both due on Dec. 1, are now payable at Messrs. Glyn, Mills, Currie and Co's bank.

At a meeting of the board of directors of the London and River Plate Bank (Limited), held on November 25 it was resolved to recommend a dividend of 4 per cent. for the half-year ended September 30 last, free of income tax, making with the interim dividend of 4 per cent. paid in June, a distribution of 8 per cent. for the year.

Mr. Kirkham, of Biscathorpe House, near Louth, Lincolnshire, has sold twenty of his much-esteemed pure-bred Lincolnshire rams to Captain Reed, to go out to Buenos Ayres, where the breed of Lincolnshire long-wools is extensively cultivated. The fame of Mr. Kirkham's sheep is being still further enhanced by large exportation of grand specimens of that much esteemed flock to these distant places. The price paid is said to be very high.

The Queen has been graciously pleased to appoint Edward William Bonham, Esq., now Her Majesty's Consul at Cayenne, to be Her Majesty's Consul for the provinces of Pernambuco, Paraíba, Alagoas, Rio Grande do Norte, and Ceara, to reside at Pernambuco.

In our last we referred to the subject of the importation of live cattle from Australia and South America. We are glad to note that the first arrival of 250 sheep from the River Plate into Havre has been sold readily at very remunerative prices. Only five died during the passage, and the remainder were landed in a very favourable condition. It is said that a rich French landed proprietor has contracted with the shipping company of Havre to bring some 300 sheep every voyage. A similar experiment with regard to cattle is about to be decided upon, and in a very short time we may be able to congratulate the Argentine Republic on a very profitable trade in this direction.

Princ Gortschakoff has resumed the direction of affairs at the Russian Foreign Office. A full Council of Ministers was to be held yesterday to consider the present situation, and determine the line of policy to be adopted. Whatever, observes the Vienna correspondent of the *Times*, be the decision, it is believed that it will be of momentous importance not only for Russia but for all Europe.

ness with fellow residents of the city by letter, but the 'express' would be of use in corresponding with the Interior.

The *Industrial* warns the Exhibition Committee to look slippery or they will find their building in the background in September next, the time when President Avellaneda will open the Show. Our colleague is right. There is no time to be lost. Confound politics.

The French Chambers have abolished the law which prohibited manual labour on Sunday. The old story, and the end will be the same. As well as we remember, the first French Republic did a good deal of this kind of law-making.

Good news. The Board of Health have recommended the National Government to reduce the quarantine on vessels from Brazil to ten days, in view of the healthy condition of Rio Janeiro. It is believed the Government will do so.

A Yorkshireman and a Lincolnshireman were once disputing as to the relative fertility of the two counties. 'In Lincolnshire,' said the one, 'if you put a horse in a field overnight, you won't see his legs in the morning, the grass will be so high.' 'In Yorkshire,' said the other, 'you may put a horse in a field overnight, and in the morning you won't see him at all.'

Two 'jovenes' came into collision on Friday and one of them was nearly out in two. The event occurred in the Inner Rooms, and the 'dramatic persons' were two pilot-boats—the Joven Julio and the Joven Manuel.

Order! order! One of our colleagues proposes that the tramway drivers should be obliged to use horns of larger size than they do at present. We oppose the motion. They make noise enough already to awaken the dead.

The Tiro Nacional hold another field day at Palermo to-day. Awfully wet weather for the goose step, to say nothing of the eighteen manoeuvres.

Placards are now coming into play in the election struggle. The police tore down several on Friday in the South end of the town, but they were up again yesterday morning.

The Entre Rios papers report the death of a man at Parana who fell from the roof of a house while walking in the sleep.

A telegraph wire has been laid from the War Office to the camp at the Chacarita.

Carnival commences early this year—on the second Sunday of February. The fashionable Clubs have already announced their masquerade balls. Between Carnival and the elections, the second Sunday of February 1880 will be a busy day for Buenos Ayres, unless Jupiter Pluvius should put in an appearance and stop both fun and politics.

A Chair of Italian is to be established in the National College of Buenos Ayres. Thanks to Rossi the actor.

The Victoria Theatre will shortly re-open with a 'Cuadros Vivos' company which includes no fewer than 70 artists.

The distinguished Franciscan, Father Esquivel, will be consecrated Bishop of Coroba next April by the Archbishop of Buenos Ayres. The ceremony will take place in this city, in the Cathedral.

There is nothing in the Montevideo papers to hand yesterday except mention of a 'incidente desagradable,' which, we suppose, means a boxing match, between an eminent esportista and a distinguished officer. Who is he?

The gold market ruled all day at 31.80, when the very last sale, in order to make a quotation, was marked at 31.85, but ten minutes after the bell rang 30.85 were sold at 31.80, and gold was still offering at 31.80.

Due to the large transaction of the week in exchange, the gold movement to-day was heavy, although the sales at the ring were not large.

Cedulas were rather firmer than yesterday, and the sales for the end of March amounted to 99,000. Prices for cash closed firm at 82. Treasury Notes firm at 76, and National Bank shares held their own at 60 1/2.

Drawers of Exchange tried hard to-day to establish 49 1/2, but no takers could be found and the bills passed on at 49 1/2. Prices for the week ending on the closing of the Leibnitz and Ligas's mails it is thought that the rate will again advance.

The business of the day was the amortization of National Bonds, the rate to-day being the very highest ever known in this market, 88.80, and but for the large amount amortized by Don Roberto Lawry, 6,000 at 84, for which the bonds would have been amortized at 95, being the inevitable bid.

The following were the bids for amortization of Treasury Notes:

E. Mansilla..... 1,550 80
T. E. Ward..... 1,000 78
P. Gandolfo..... 750 77
J. S. Casado..... 5,000 77

Don J. A. Fernandez, treasurer of the Rista-
ra Fund, received 550 to-day from England for subscription of an English River Plate house.

Mr. N. Mortimer and Commander H. T. Chan-
cy of the Elk were welcomed on 'Change.'

Mr. Mortimer says that according to the prices published, wheat is dearer here than in Eng-
land, and has kindly promised to give us the figures.

We have received a letter in reply to Mr.
Dillon's remarks about the Nile wheat, which
we are compelled to hold over. As we are able
to send Mr. Samsom, comparing Nebraska
with Buenos Aires, and a strong letter on our
Custom House. They all stand for Tuesday.

The gold sales were—
For cash 191,369 31.80-85
For Jan. 17th 10,000 31.85
For Jan. 31st 42,000 31.90
Sales 243,269.
Vencimientos 215,000 pata.
Cedulas—
For cash A, 8,700 at 82
For Jan. 31st 25,000 81 1/2
For March 31st 50,000 81 1/2
Vencimientos 20,000 pata.
Treasury Bonds—
For cash 4,200 at 76
For Jan. 31st 100 shares 60 1/2
Mr. J. F. Gahan of Llores sold his wool on
the exchange at 167, delivering in the Plaza
Once at 167. In some of the flocks less than
4 shewes made an ear of wool.
Gold at afterwards ruled the same.
The sale of a yellow cargo from Llores, 600
pipes, Tays, reported at 1 1/2 on shro.
Also 2000 pipes hides, Podesta, 35 lbs, at
21 reales.
Also 1000 Correntino hides at 47, and 1000
at 47 1/2.
Freights after the great push for the 5th
dropped to-day to 30s and 10 per cent, 1000
bales engaged at this rate for Kepher.
Mr. Woodgate continued leading the
Straitly to to-day at 45s and 10 per cent. Kepher
Antwerp, and 40s and 10 per cent. Dunkerque.
The Galileo it seems has made a splendid
run, beating the French mail to Lisbon where
she arrived on the 4th.
A Municipal meeting was held to-day, and
a committee named to see the Government
about the suspension of Municipal services, if
new budget for year not passed.
Gold for export sold at 1 1/2 premium, and
bills on Montevideo at 1 1/2.
Exchange ruled quiet enough this afternoon
and a large business done. American and Ger-
man bills on bankers at 49 1/2 and 52 1/2 Antwerp
Discounts on bills at 8 to 8 1/2.
Payments for produce were very heavy, and at
all the banks a large movement.
Telegrams received to-day state that R.M.S.
Guadiana sailed on 29th December for Rio de
Janeiro at 21.50 on board.
The sale of the fine Barlo estancia on the
Arroyo river 1,275 square is reported for
1,400,000 m/c. Messrs Han buyer, whose ex-
clusive adjoints: some of the best land in this
country.
Messrs. Deggan sold—
1,800 ar. good wool 104.
3,000 do regular 95.
3,000 do do 95.
It was reported on 'Change' that the guaran-
tee business of the Provincial Bank for the
canchales in Europe has fallen through; and
the Provincial Government opposing.
Charter, German brig Woodan to load tal-
low at Gualeguay 30s or so for orders.
Mr. Ham sold
1500 ar fine wool 103
2000 lambs 110
Mr. Casey sold
300 ar at 102
400 do do 99
500 fan. Bragado wheat 180 per ar
The Custom House receipts to-day were
33,069 pata.
At the following following sales:—
Gold—
For cash 50,000 31.80
Jan. 31 10,000 31.90
At 5 p.m. Market closed at 31.85 sellers
and buyers at 31.50 for cash, and for end of
month sales at 31.90 and buyers 31.85.
Cedulas A—
Jan. 31 10,000 81 1/2
Nat. Bank Shares—
For Jan. 31st 100 shares at 60 1/2
At the South Market some business done at
the following prices:—
14,000 ar. of wool arrived by train and car.
500 fan. wheat, 60 fan. maize in cob and other
produce.
20,000 ar. of wool sold.
The sales were—
Wool—Lots by various at 78, 80, 88, 90,
93, 94, 95, 98, 100, 103, 104, 105, 110 and
112 according to quality.
Sheepskins—doz. macedero and camp
by various at 33-35 rls. Ordinaries at 30-31.
Epilomas, desechos and cordones at 21 to
13 rls. Pelados at 35, 65-70.
Cow Hides—288 macedero, camp and epi-
doras at 195-208. Booceros at 170. Nonatos
at 93.
Horse Hides—500 camp at 33-40
Doerskins—500 do, classified at 92.
Nutria—5,410 lbs. at 9-12 1/2
Hides—28 at 14-15 1/2
Maize—500 fan. macedero, shelled, at 73
Wheat—50 fan. new, Costa, at 185
Flour—At Molino Constitution, 4,000 ar.,
at 30.
At the Plaza Once the following business
done:—
Arrived by rail 120 waggon with produce,
15,000 ar. of wool entered.
The sales were:—
Wool—3000 ar. Bayugo, 90-100
2500 Duggan, 90
750 " 104, borrega
300 Peres, 110
4500 Oja, 90, 92, 98
100 " 100, 108
200 in lots by various 89, 92
10,150 ar.

The Cotopaxi's mails have brought the fol-
lowing advices:—

A circular has been issued notifying the
suspension of Mr. C. T. Götting, of Corbet
Court, Gracechurch-street, London, and B.
Ayres. The house was established in 1855.
The books have been placed in the hands of
Messrs. Langford, Young, and Co.; and
Messrs. Parker and Co., 48, Michael's Alley,
are the solicitors. The suspension is stated
as have arisen from failure of foreign corres-
pondents. The firm was formerly in a large
way of business, but of late its bills have been
rarely seen in this market, and the liabilities
must be small.

"Schwein, Wustphalia; Gebrüder Busche,
manufacturer, liabilities very large, the greater
part of which will fall on Leeds, Bradford,
and Manchester. With respect to the failure
of J. E. Godefroy and Son, of Hamburg, the
liabilities are stated to be from one million to
one million and a half marks. Among the
principal creditors are the North German
Bank, Baring Brothers (who are said to be
creditors for 210,000), and John H. Schöder
and Co. (250,000), of London, and F. D.
Krauss and Co., of Paris (4000); but these
numbers are probably against credits and con-
signments, and therefore more or less covered.

We received mails from Rio to-day to Jan.
1st. Mr. Adamson has suspended Mr. Randle,
owing to the charge of smuggling brought
against the latter. Exchanges—
24s and River Plate flour selling at 17 to 19
mill; market firm, and flour 91,312
barrels.

It seems that the German steamer *Hermann*
brought out 1,119 emigrants in all, and had a
most favorable voyage; two deaths on board
and one birth. In the voyage from Bremen
to Genoa she met with a terrible storm; the
captain died on board and was buried in
Genoa.

The Pacific steamer *Britannia* beat the
Niger in the run up to Rio by 14 hours and 10
minutes.
The German brigantine *Emma Beng* cleared
yesterday by Schwartz for Antwerp from
Montevideo with 452 bales wool and 40,500
boms.

The Spanish brig *Tinoco* 1, to load in
Guahy 4,000 qts. beef for Brazil, at 4 1/2 to 6 1/2
and 6 per cent.

On Dec. 10th 550,000 sovs. were withdrawn
from Bank of England for South America.

Mr. Hall, cotton merchant, and Mr. Nash, tea and
importer, were welcomed on 'Change.' Mr.
Nash has just returned from a trip to Santa
Fe colonias.

The papers up from Montevideo contain
long articles against the New Supply Com-
pany. We have no time to read the articles
through, but the article seems to stand on the
same bottom as the G.S. question. No money
no war, and of course large amounts due to
the Company. We suppose the matter, like
G.S. question, will admit of the same arrange-
ments.

The great news in the Plaza Once market
this morning was the very sudden rise in
wheat. 200 m/c. asked for some little time
by steamer to Antwerp, has been sold for 41
for, and ultimately sold at 185 m/c. This
for the ordinary run of wheat is about the
highest price ever remembered.

The news from Europe about Argentine
flour is simply splendid. A consignment sent
by steamer to Antwerp, has been sold for 41
for, being equal to the highest price for the
best U.S. States. The flour was from the San
Francisco mill this city, and we much con-
gratulate Mr. Hayton, the miller, on the sale.
Mr. Bies was the broker who sold the flour, as
it is now no longer broker, but partner of the
firm of Hermann Aligal, Calle Venezuela.
The following is a summary from Mr. Aligal's
weekly wheat review given round to-day:—

Arrivals during week—
Wheat Flour Maize
Kgs. Kgs. Kgs.
West. Railway..... 69,082 44,138 —
West. Railway..... 39,874 18,782 50,831
South Railway..... 57,100 — —
In carts..... — — 33,700

Total..... 408,096 67,920 83,781

Export to—
Europe..... 36,720 6,992 83,250
Basil..... — — —

Basile 4,175 bags of wheat have arrived, the
weight of which has not yet been determined.
Wheat—The demand from millers is strong,
and the light arrivals do not meet the wants.
Every arrival is immediately disposed of, and
important rise has taken place. The high price
of the previous week for Costa kinds are now
also paid for those of the Salado, and 600
fanegas of Chilivoy wheat fetched 180 m/c.
A heavy Chubut lot was sold at 169 m/c. The
Costa kinds are firm at 180 m/c. There is
some more animation in the flour market,
and transactions have been made at 30 and 31
m/c. per arroba of B. Aires. This rise is not
extraordinary, considering the high price of
the grain. The maize market is dull.

We received from India by to-day's mail the
following:—
Department of Agriculture and Commerce,
N.-W. P. and Oudh.

November 8th, 1879.

Cawapore N.-W. P., India.

I have been recommended by a former re-
sident of Buenos Aires to apply to you for as-
sistance in obtaining some fresh seed of the
South American fodder crop called 'alfalfa,'
which I am desirous of introducing, if possi-
ble, to the cultivators of this portion of India.

Should you be able to give me any assistance,
either by obtaining fresh seed, or by other
means, we will be very much obliged to you,
concerning its habits, mode of cultivation and
a large culture, I need hardly say that you
will confer a great obligation.

The amount of seed I want to commence
with would be about 50 lbs, which should be
forwarded to me via Calcutta.

Yours very truly,
J. B. FULLER,
Asst. Director, Dept. of
Agric. & Commerce,
N.-W. P. and Oudh.

Messrs. Punge & Co., of Antwerp, under
date 11th Dec., give the following:—
Wool—

Since our last the market has ruled active
more firmness has been noticeable and some
improvement in prices has been established
particularly on good qualities. Arrivals of the
new clip have reached us more freely and the
quality so far has given satisfaction, having
turned out better than was generally expected.
Various small parcels have fetched high rates,
say 12 to 14.50 for wool rendering 36-37 o/o.

The following changes will be introduced in
our selling conditions for wool and sheepskins
with the beginning of next year, there will
only be allowed a 5/100 rate per tale and no
discount will henceforward be given.

Sheepskins—
We have had a few arrivals of skins of the
new season, which has given rise to some
business. Prices paid denote great firmness,
and for good and full-woolled skins a rise of
from 5 to 10 centimes on last month's prices
was allowed.

Skins 74 bales.
Skins 480 bales.

At the public sales held in Bordeaux from
23rd to 26th inst., 3,962 bales were offered and
3,162 bales sold. The sales were well attended,
and a rise of 15 to 20 centimes established on
October rates.

Hides—
The demand has continued fair; however
with small receipt and stock greatly reduced,
the value of the business transacted has
nearly been limited. Prices continue to
favor seller, and for Uruguay salted ox
the following rates were allowed 74-75 for 20 to
25 kilos and 79-82 for 25 to 32 kilos.

Dry hides are also in good demand. The
top price so far paid for Buenos Aires mace-
dero ox as well as cow is 74.145.

The following is an extract from the report
of the London & River Plate Bank Directors
received by the mail:—

In presenting the Seventeenth Annual Re-
port, the Directors are able to express their
confidence in the position of the Bank.
Notwithstanding the low rates of interest
ruling in the River Plate during the past year,
and the increased competition the Bank has
had to encounter, its general operations have
been of an encouraging character, and the re-
sult of the year's business will doubtless be
deemed satisfactory.

After making ample provision for bad and
doubtful debts, and adding to the reserve fund
the sum of £5,500, thus raising it from
£131,500 to £140,000, the Directors are en-
abled to declare a dividend of 4 per cent for
the half-year ended 30th Sept., 1879, being
with the interim dividend paid in June, 8 per
cent for the year. A balance of £3,474 7s 6d
will be carried forward to the profit and loss
account for the current year.

The Directors who retire by rotation on this
occasion are Messrs John Ekin, David Rowden
and Thomas Richardson, who, being eligible,
offer themselves for re-election.
Dividend warrants, free of income tax, will
be issued, payable on the 22nd Dec., 1879.
GEORGE W. TREMAYNE,
Chairman.
GEORGE W. TREMAYNE,
Secretary.

ADMINISTRACION DE AGUAS CORRIENTES & Co.

Aviso a los Proprietarios Y EMPRESARIOS DE OBRAS

Por disposición del Sr. Presidente de la Comisión y a fin de salvar los inconvenientes que diariamente se presentan en el servicio de las Aguas Corrientes, se hace saber al público que aquellas casas en que la cañería interior haya sido colocada o alterada sin el consentimiento de la Administración de Aguas Corrientes, serán sancionadas por el Jefe de la Oficina de Ingenieros, al cual se debe presentar el plano de la cañería interior, al cual se debe responder en su caso, con el consentimiento de la Administración de Aguas Corrientes.

De acuerdo con el Reglamento para la provisión de agua, se hace saber al público que en las casas que estén provistas de agua y aun cuando paguen según medidor, no podrán hacer modificaciones o construcciones en que sea necesario el agua sin previamente presentar a la Oficina de Ingenieros, el plano de lo que ha de hacerse a fin de evitar la cuota que corresponda por el consumo.

En su defecto se cobrará el doble de lo que correspondiera abonar, suspendiéndose la provisión, en caso de negarse a ello.

MAXWELINA

No more scab in Sheep if this Specific be used.

It also possesses the unknown advantage of not destroying the wool nor injuring the animal even though the solution be prepared, by mistake, of too great a strength.

FOR SALE BY
EDWARD CASEY, 80 Reconquista
D ROSETH & Cia. Victoria 162

AND AT THE
Corral 11 DE SETIEMBRE, de V. R. & E. CASARES, Calles
Rivadavia y Rioja.
In the same Establishment there are on sale Posts, Wire, Iron, Galvanized
Iron, Tiles, Pine etc. etc.

V. L. AND E. CASARES,

Baltar y Quesada

Una Manzana de Terreno EN BARRACAS AL NORTE

A 80 varas de la rivera. Terreno alto de gran porvenir. Tasado sumamente bajo.

El Domingo 25 de Enero a las 2 en punto de la tarde, procederemos a vender por orden de su dueño, una manzana de terreno situada en Barracas al Norte, a inmediaciones del punto de Barracas y a 80 varas de la rivera, ubicada en las calles de Saladero Brown, San Ricardo y calle de Salta (esta podrá hasta el mundo).

La manzana de terreno a vender tiene una figura de triángulo y mide 88 varas la cara de San Ricardo, 149 varas la de Saladero Brown, 39 varas a esta misma y 148 a la de Salta y está rodeada en todas las partes por las calles de Salta y de Saladero Brown, con lo que es un solo lote como los interesados quisiera.

Las lotes están divididas desde 12 hasta 39 varas de frente.

Este terreno tiene una situación inmejorable para el comercio y para la agricultura, ya que está rodeado por las calles de Salta y de Saladero Brown, con lo que es un solo lote como los interesados quisiera.

En cuanto a su porvenir ya ha sido comprado por la D.ª de Barracas para hacer hoy buques que calan 18 y 20 pies de calado.

Los interesados en 18 varas con el plano para conocer la subdivisión practicada pueden acudir a nuestra casa San Martín 51. Títulos inmutables.

STEEL WIRE

Schneider & Co.

Special Steel Wire of the Crenset Works. This Wire, the very best ever imported into the River Plate, has been tried against all other wires in this market and gave best results. Its price combined with its quality allow Steel Wire fences to be made cheaper than iron wire fences, both having equal resisting power.
